

Innovative Remediation Solutions Workshop - Ontario Region

February 2 & 3, 2009, Toronto, ON
89 Chestnut Street, University of Toronto

Innovative Canadian Remediation Solutions | Technology Vendor Presentations | Federal Updates | Case Studies | Mini-Trade Show | Breakout Sessions | Networking

Delegates include:

Property Owners / Custodians (federal, provincial, municipal) interested in identifying remediation solutions

Consultants who use / apply remediation solutions

Vendors seeking new opportunities to apply their solutions

Officials who approve the application of remediation solutions

Participants will:

- **Learn** about innovative Canadian Remediation Solutions
- **Collaborate** to address issues, barriers, and challenges related to clean-up of contaminated sites
- **Network** with potential clients, solution providers, and government representatives
- **Discover** new applications for your remediation solutions
- **Suggest** potential operational policy changes that will encourage the adoption of innovative remediation solutions
- **Identify** remediation solutions that could transform your contaminated site into more productive use
